02 EXPERIENCE

May 2022 — Sep 2022

Rawalpindi

Frontend Developer at TheXSolutions

Collaborated on 10 distinct projects, showcasing versatility and proficiency in front end development.

- Successfully delivered results on 10 diverse projects, highlighting adaptability and expertise in frontend development.
- Developed captivating user interfaces for projects including Chat App UI, Burger Website Landing Page, CRM Website, and Dashboard UI.
- Played a pivotal role in enhancing UI design, leading to improved user experiences and visual appeal.
- Proactively identified and rectified bugs, contributing to seamless functionality and heightened user satisfaction.
- Demonstrated skill in converting landing pages, further enriching the user journey and optimizing engagement.

Sep 2022 — Present

Rawalpindi

Lead Frontend Developer at Venn Solutions

- Single-handedly conceived, designed, and developed a comprehensive website from end to end, demonstrating prowess in both frontend and backend development.
- Leveraged React.js and Next.js on the frontend to create a responsive and user-friendly interface, seamlessly integrated with MSSQL for efficient data management.
- Engineered a dynamic CRUD application, meticulously architecting every aspect of Create, Read, Update, and Delete operations for optimal user interactions.
- Devised and implemented a sophisticated Profit Calculator, enabling users to perform intricate financial analyses directly on the platform.

- Designed an advanced Tax Management System that not only facilitated seamless data handling but also included a robust data export feature to Excel, complete with precise formatting.
- Crafted per-user information structures, ensuring personalized experiences while maintaining the highest standards of data security.
- Pioneered the development of a secure Login System and authentication protocols, ensuring data privacy and controlled access for every user.
- Assumed a pivotal role in rigorous testing and debugging, ensuring the final product delivered a flawless and intuitive user experience.
